NASDAG MEDIA & IT · VERSION 2.0.0

# Malbat CMS

A website of its own for the family tree – with photos, memories and stories from everyone.

All names and pictures in the screenshots are made up. The pictures are drawings.

PURPOSE

# Bring the family's history together – safely, and together

### Preserve

Old photos, voice recordings and memories are kept before they are lost.

### Connect

Everyone can add, ask and answer – wherever in the world they live.

### Own it

The site runs on the family's own web hosting. The information belongs to the family.

DESCRIPTION

# What is Malbat CMS?

A family tree system that installs on ordinary web hosting, much like WordPress. The family gets its own site, with the name, languages and texts it chooses.

Guests see a simple front page. Everything else is only for members the administrator has approved.

**5**
languages, including Norwegian

**4**
user roles

**6**
steps to install

**10**
generations in the tree

FEATURES

# Everything the family needs in one place

### Family tree

People, families, ancestors and descendants

### Photos and video

Tag people, share from the phone

### Memories

Stories, voice recordings and @mentions

### The family asks

Questions and answers that go into the tree

### Family map

Where the family lives and came from

### Quiz and puzzle

New every week, with a top list

### Newsletter

Monthly email in each member's language

### Reminders

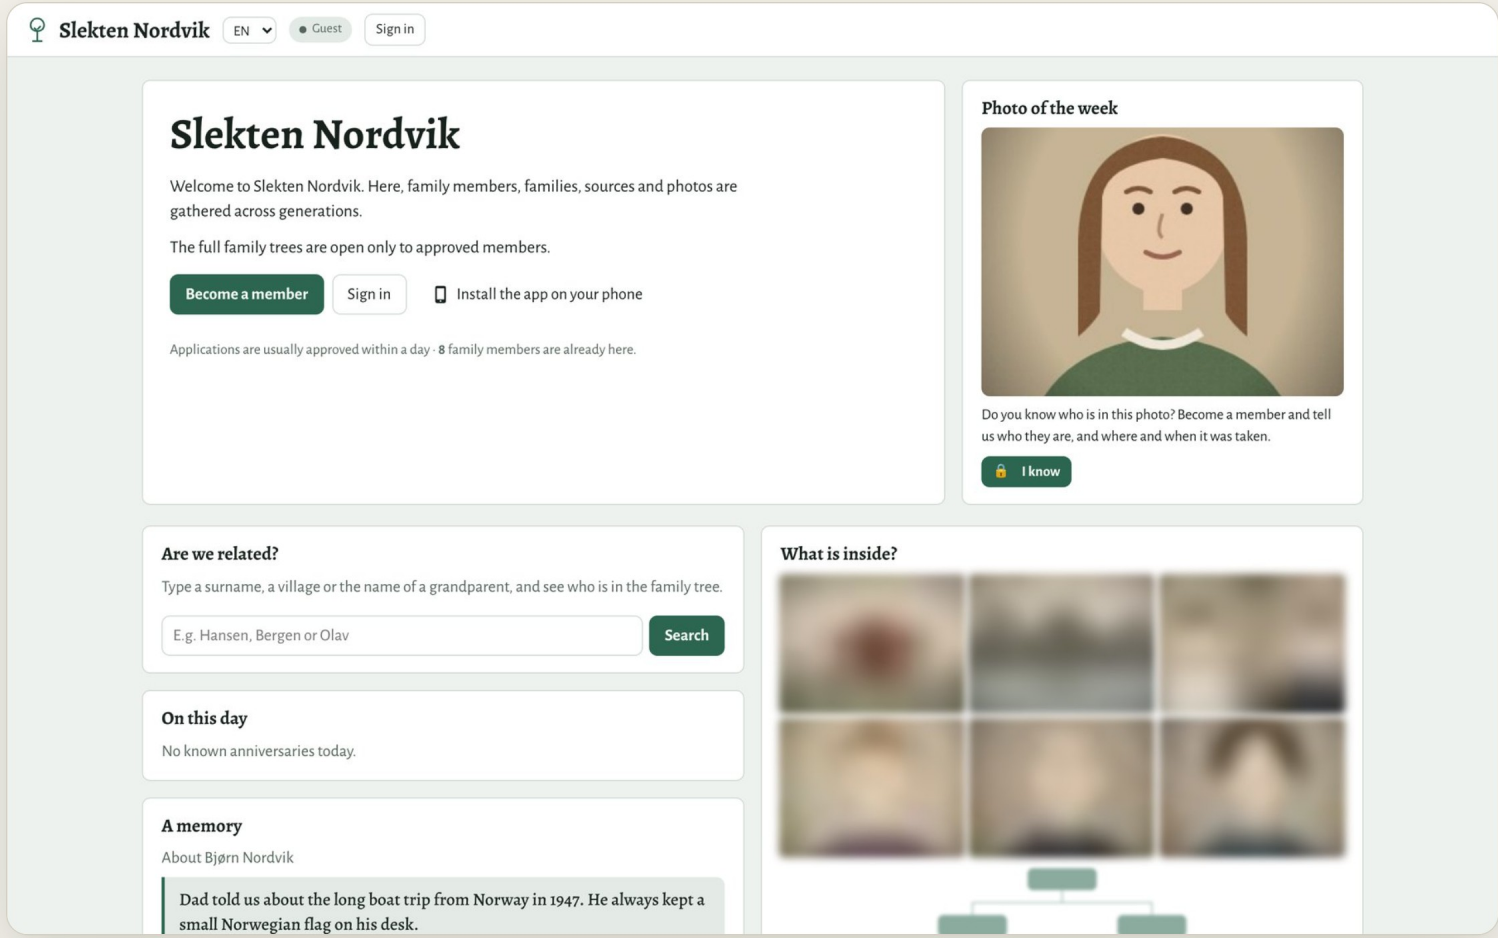

Grave visits and anniversaries on the phone

FRONT PAGE FOR GUESTS

# Inviting, but private

Guests see the photo of the week, can search “Are we related?” and get a small glimpse of what is inside.

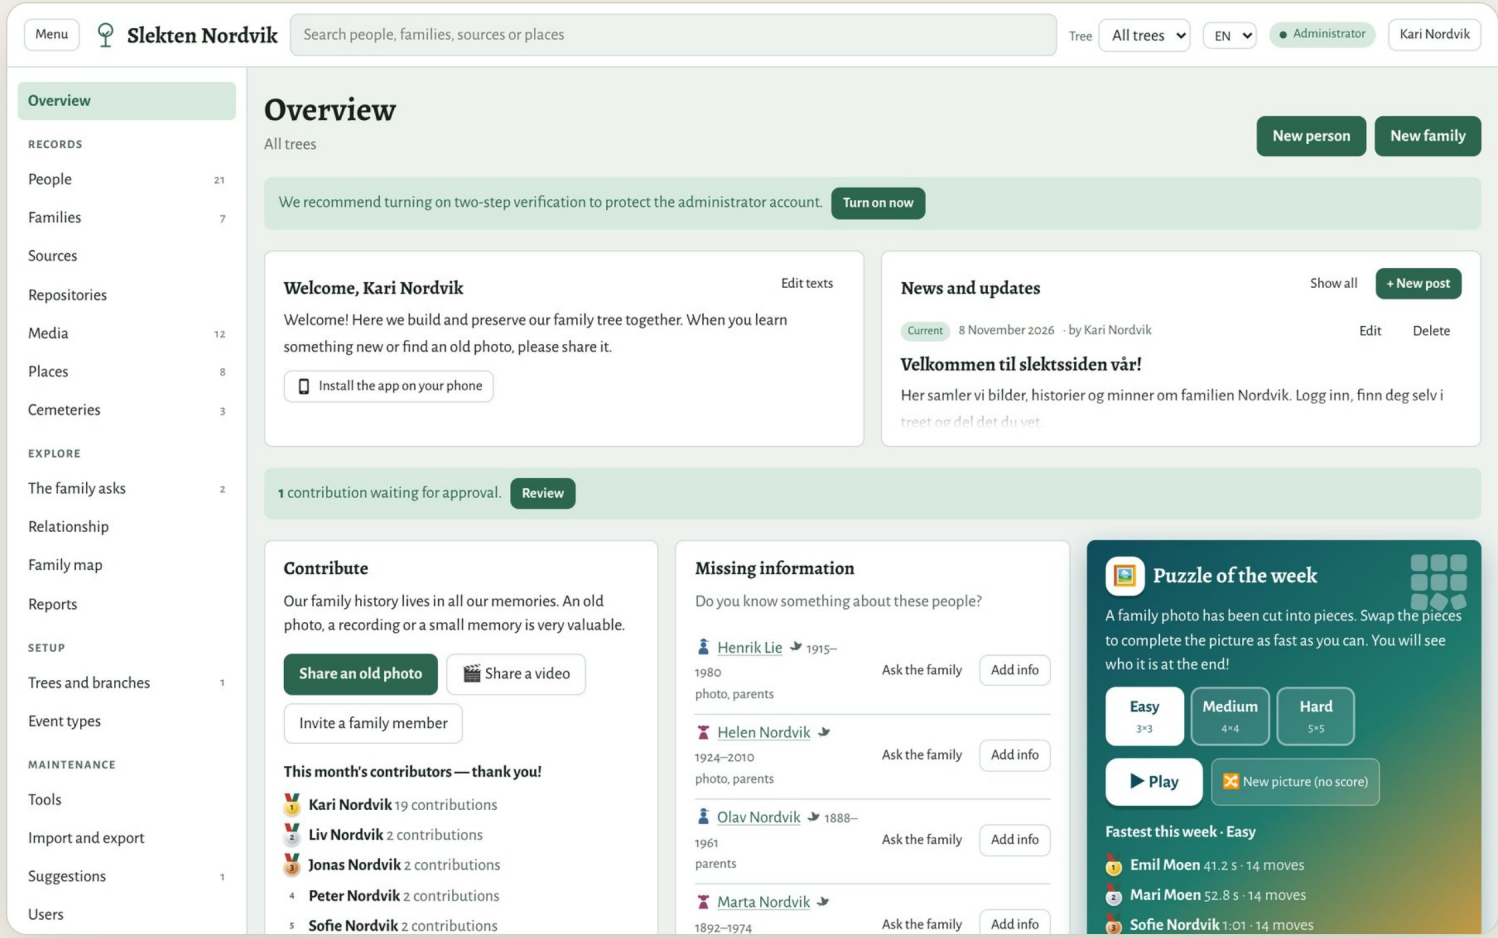

Living people are never shown without signing in. **Become a member** sends an application to the administrator.

FOR MEMBERS

# The overview brings it all together

- Welcome and news
- Share an old photo or a video
- Missing information to fill in
- Contributors of the month, with medals
- Contributions waiting for approval

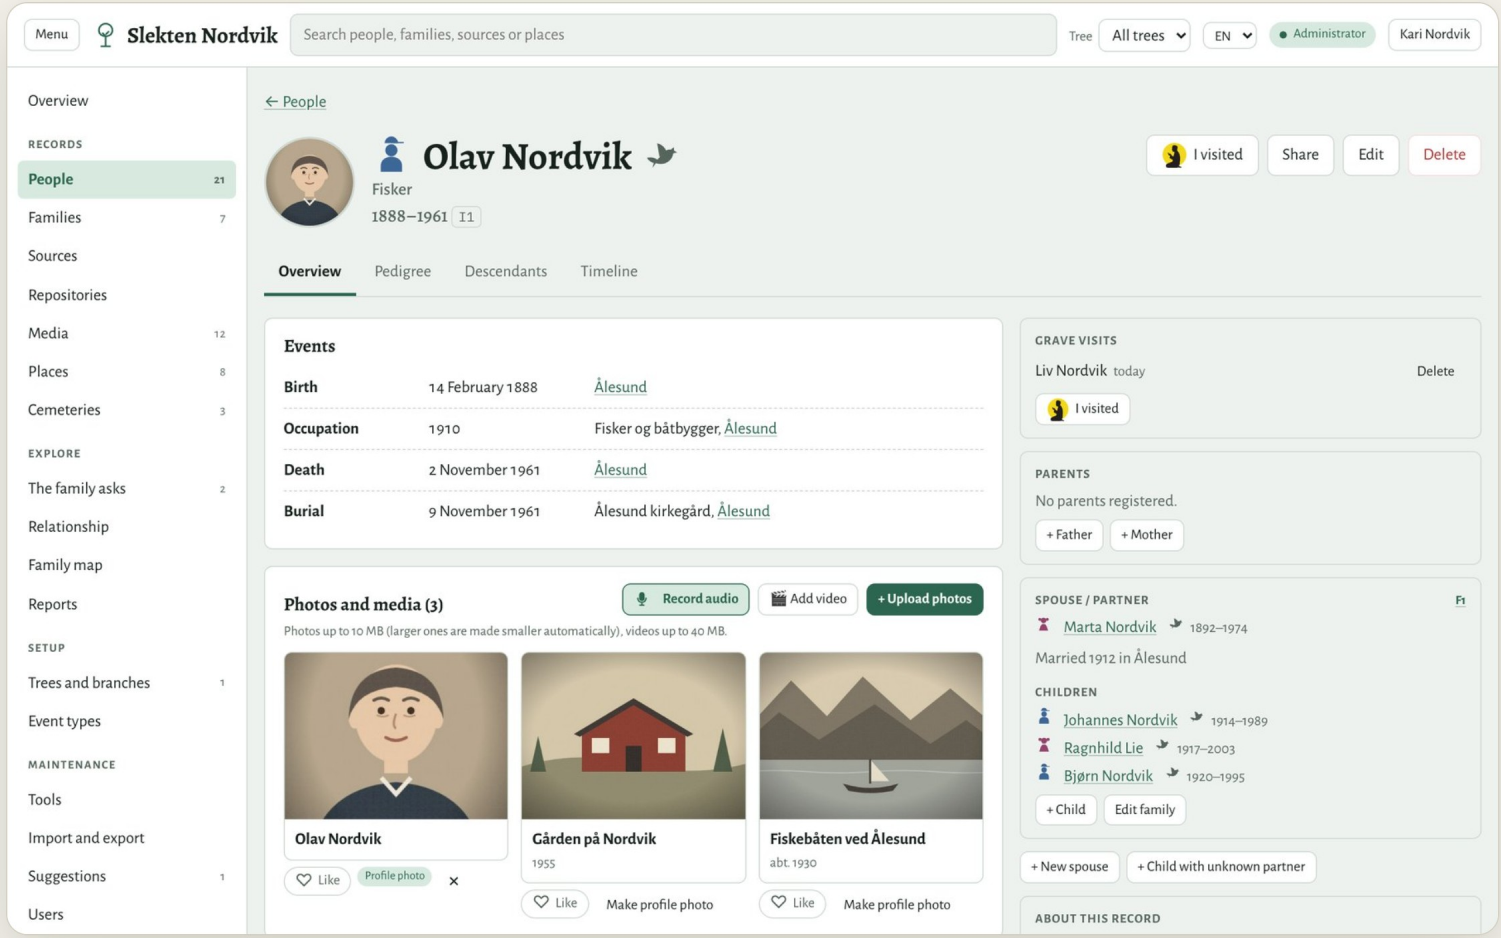

PERSON PAGE

# A whole life on one page

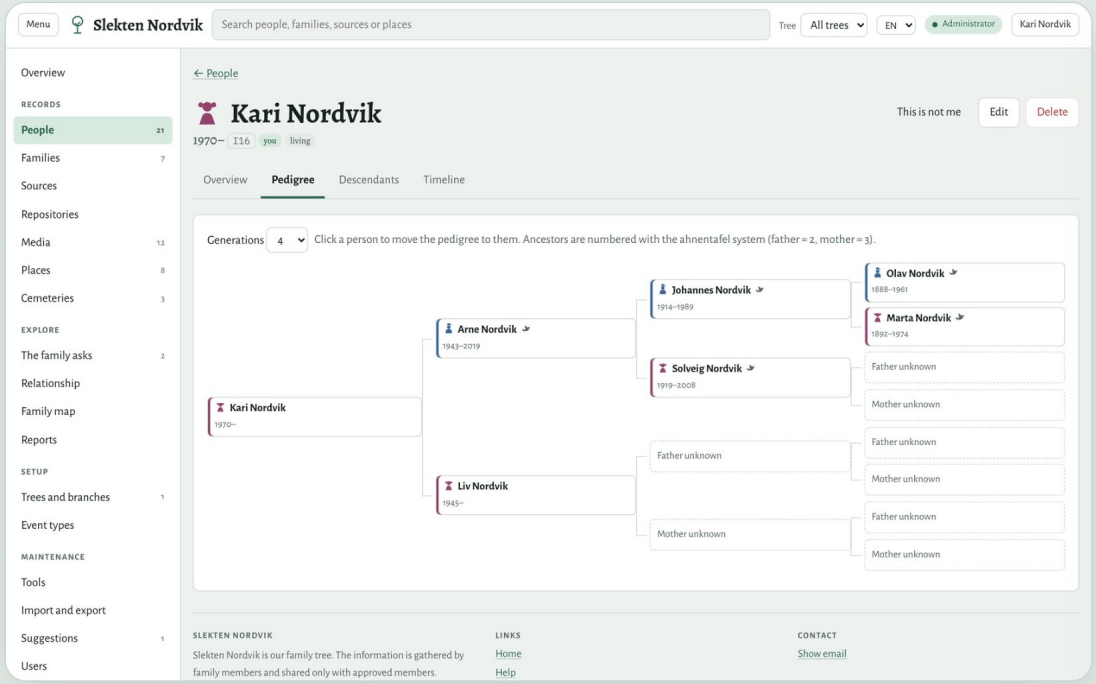

Events, parents, spouses and children, burial place and photos.

Members can record grave visits, share a person card and click **This is me** on their own page.

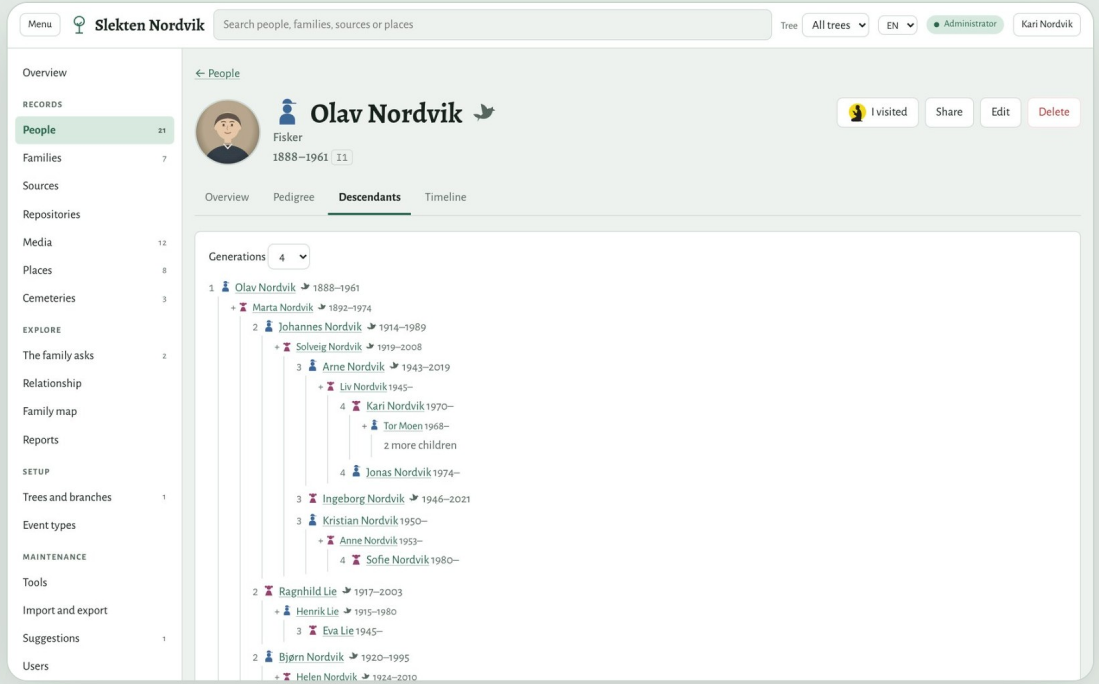

FAMILY TREE

# Ancestors back, descendants forward

**Pedigree:** click a person to move the tree

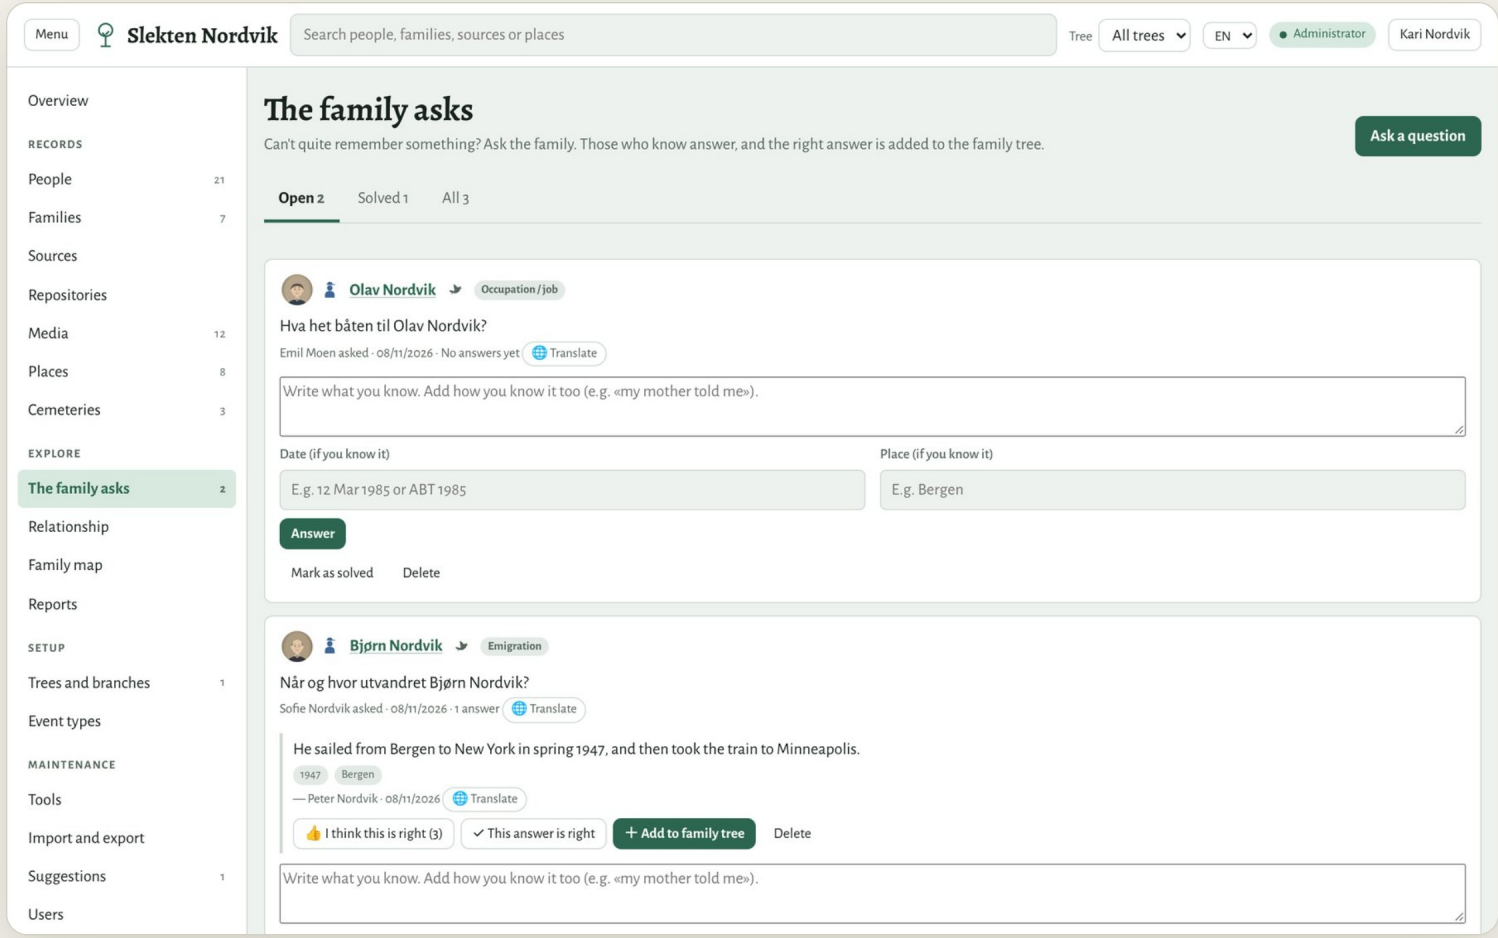

**Descendants:** up to 10 generations

THE FAMILY ASKS

# Ask the ones who know

Can't quite remember? Ask a question about a person. Close family get a notification on their phone.

Others vote on the answers. The right answer goes straight into the family tree.

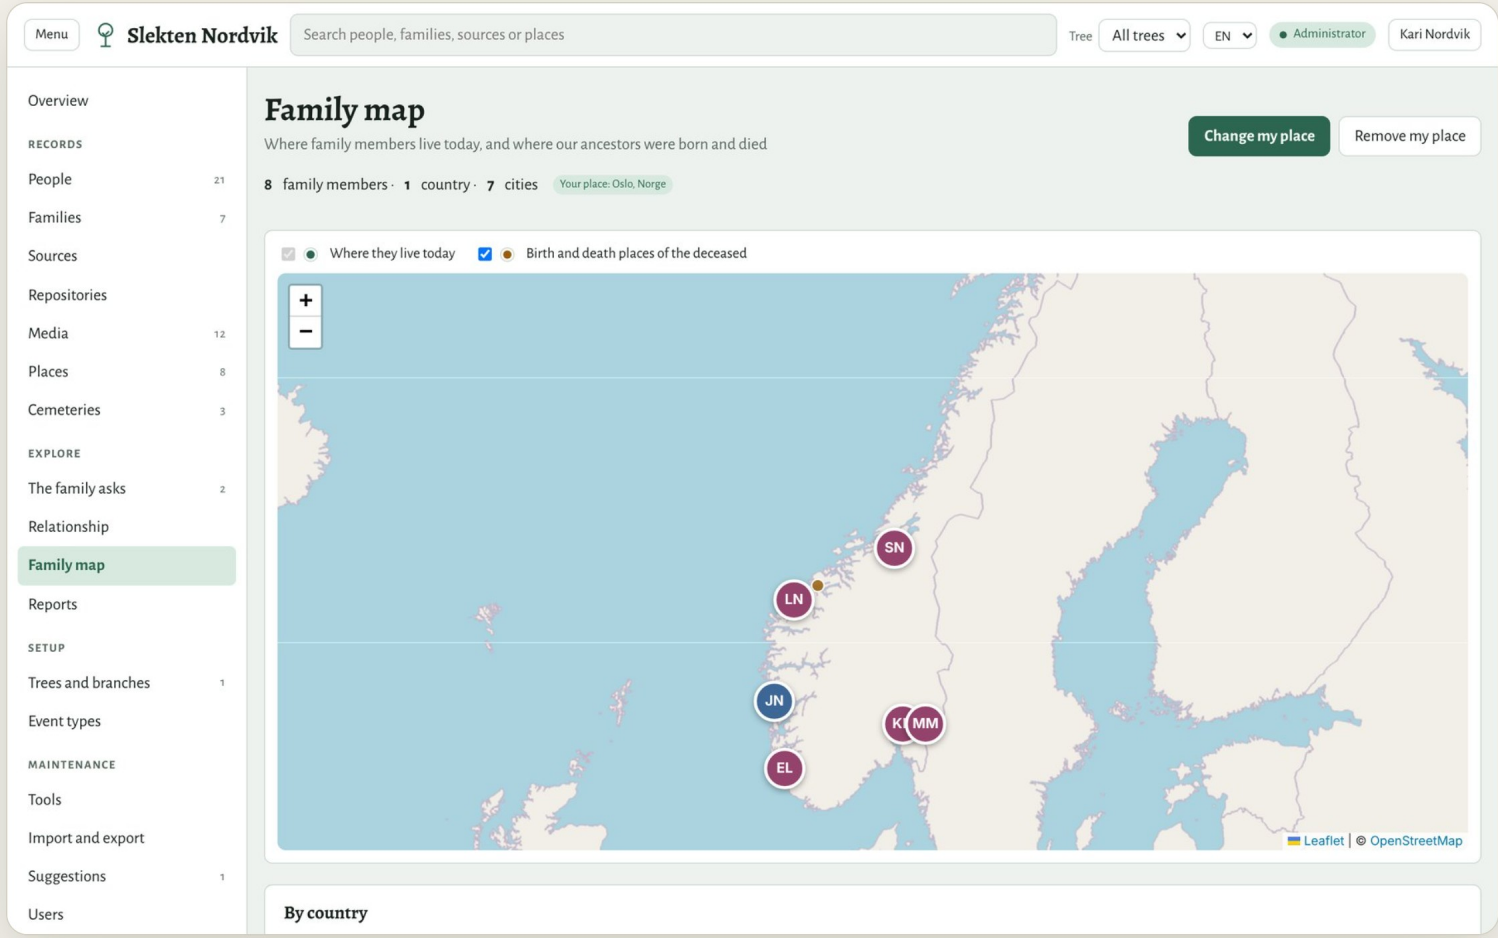

FAMILY MAP

# Where do we live, and where did we come from?

Members add the town they live in. Birth and death places of ancestors show in a separate layer.

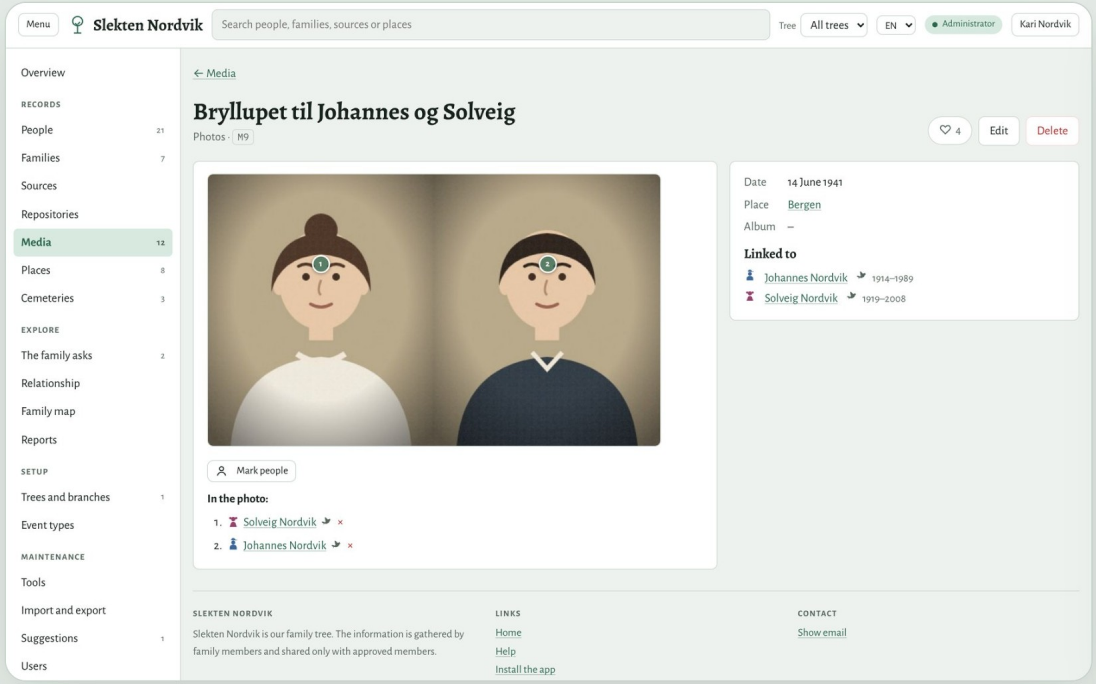

Only the town is saved, rounded to about 5 km.

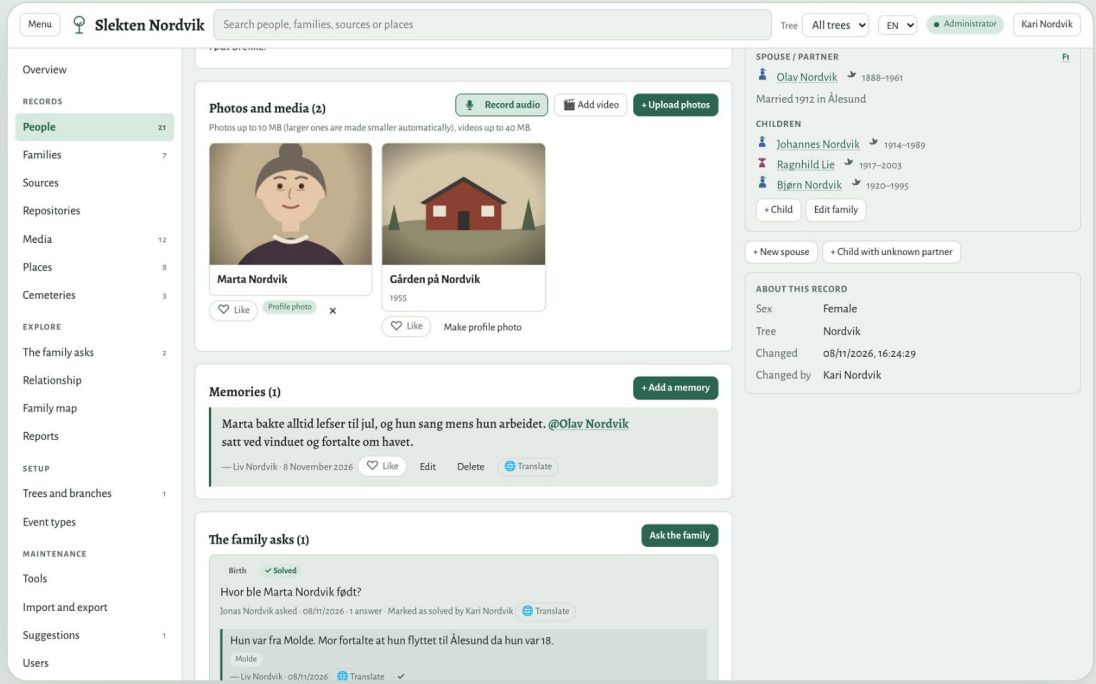

Malbat CMS 2.0.0 · Map from OpenStreetMap (simplified in the screenshot)

PHOTOS AND MEMORIES

# Who is in the photo, and what do we remember?

**Mark people:** tap a face and pick a name

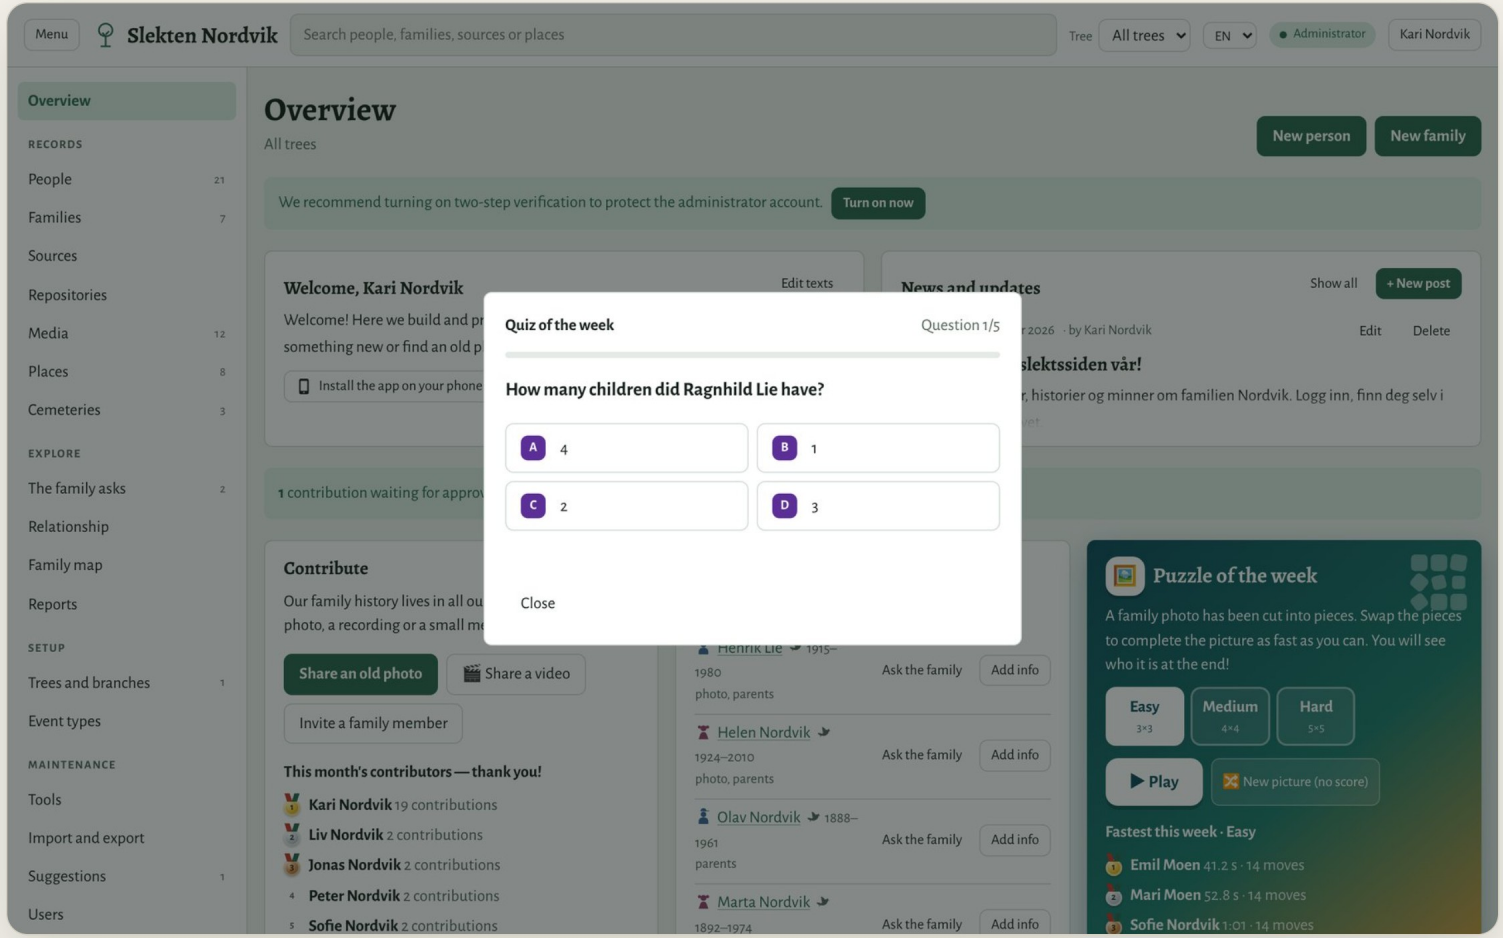

**Memories:** short stories, likes and @mentions

QUIZ AND PUZZLE OF THE WEEK

# Get to know the family – and have fun

Five new questions every week, made from the family tree.

The puzzle cuts a profile photo into pieces. The fastest player tops the weekly list.

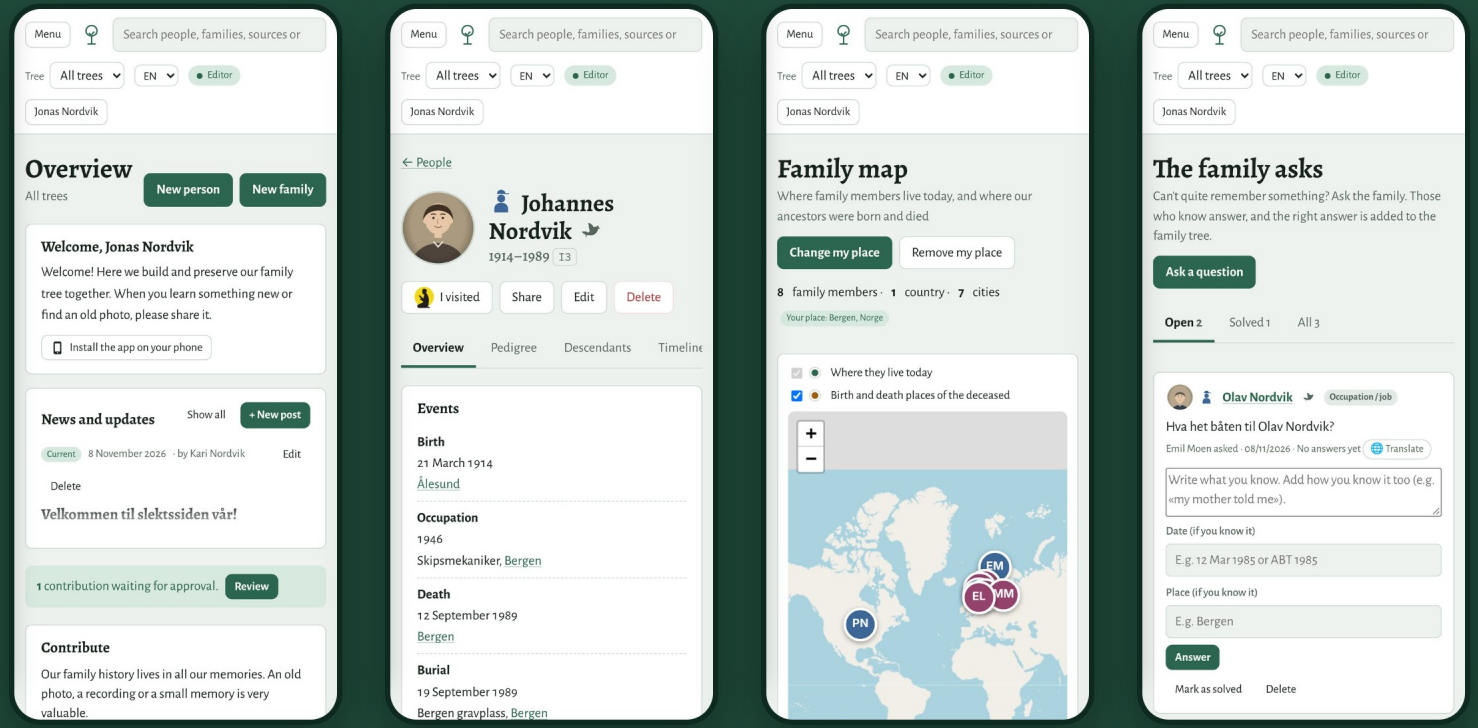

ON THE PHONE

# An app without an app store

The site can be installed on the home screen and sends reminders about grave visits and anniversaries.

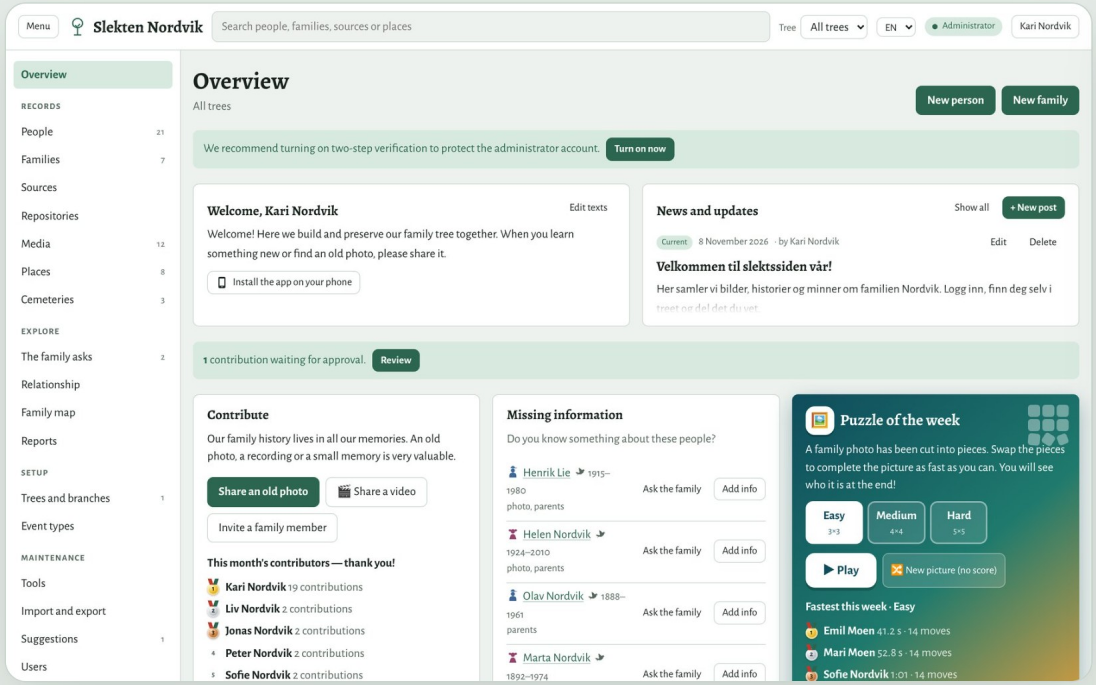

On Android, photos can be shared straight from the gallery.

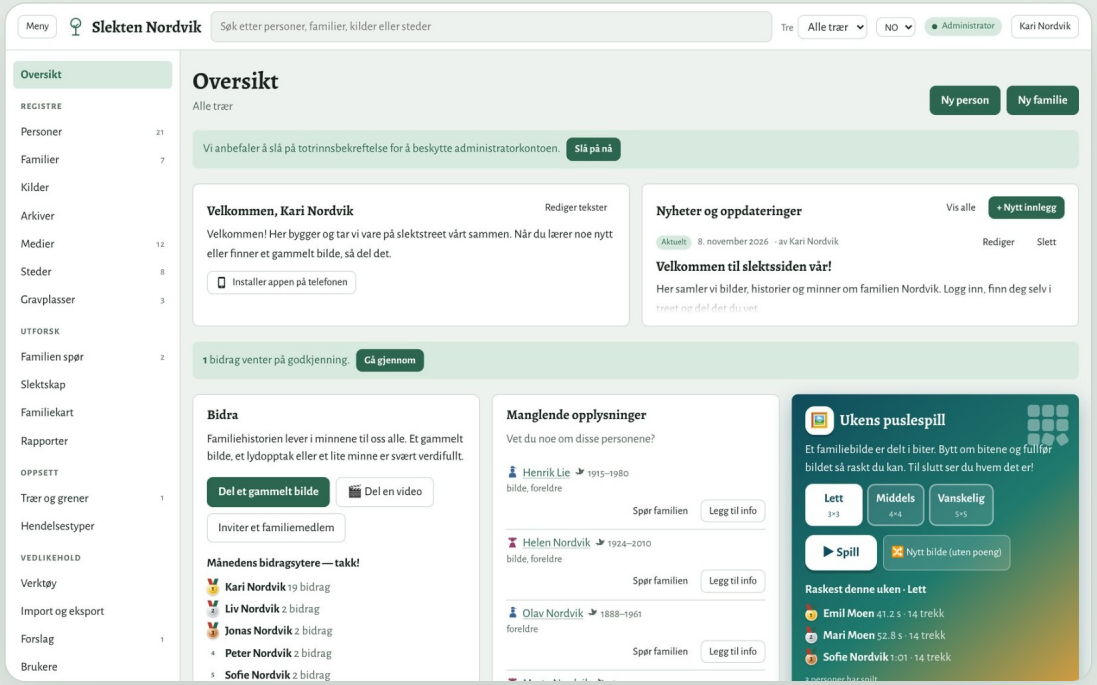

ENGLISH AND NORWEGIAN

# Everyone in their own language

Choose the language in the menu at the top. Notifications, emails and newsletters arrive in each user's own language.

English

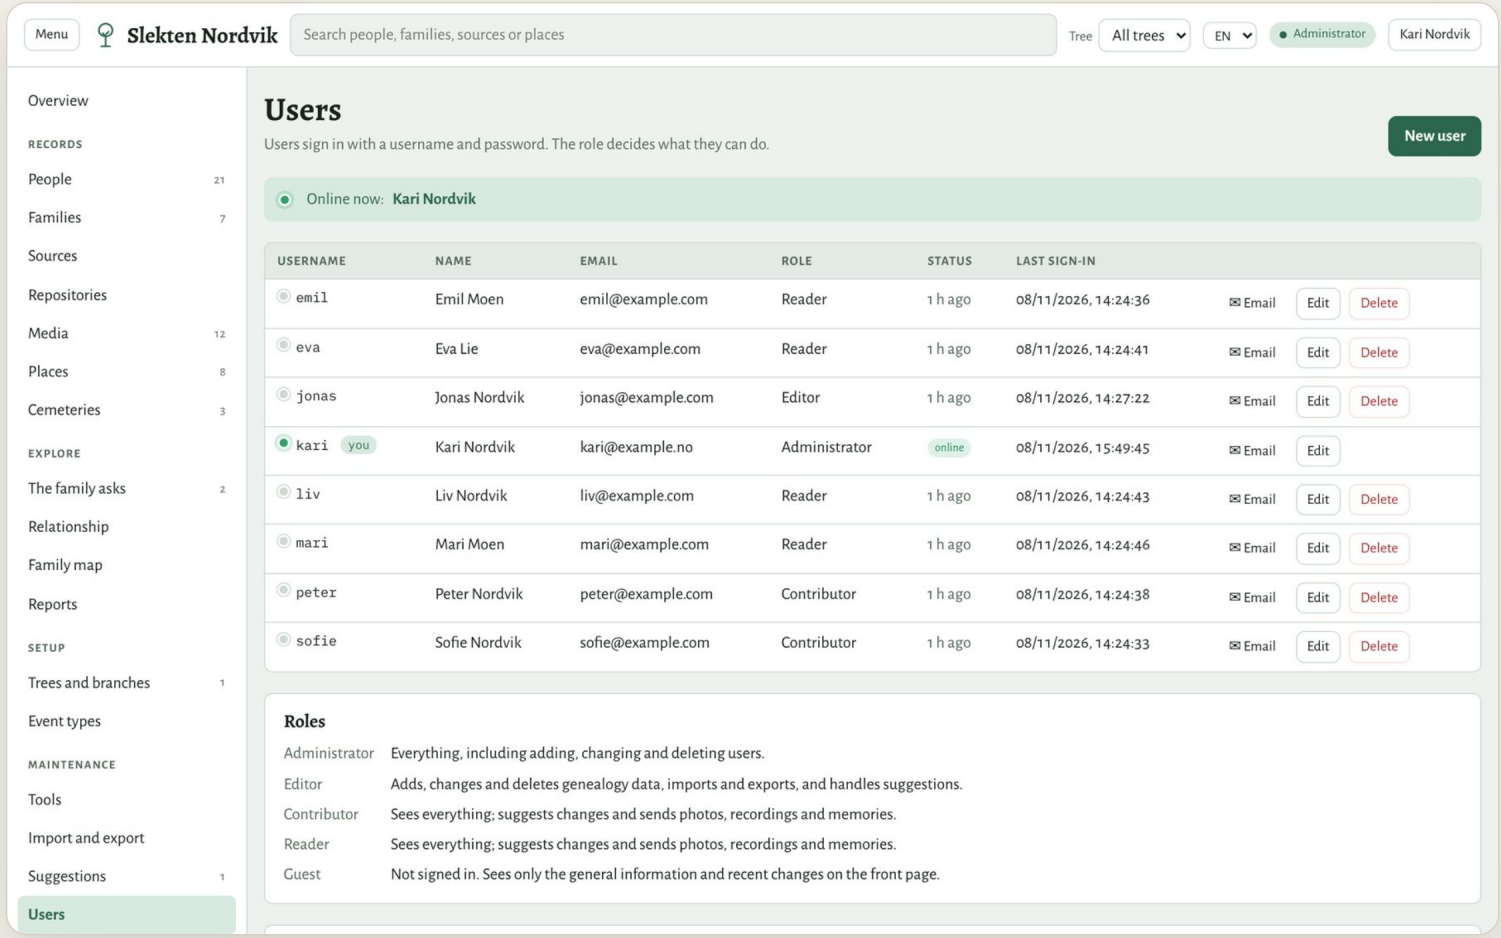

Norsk

ADMINISTRATION AND SECURITY

# The family decides who is in

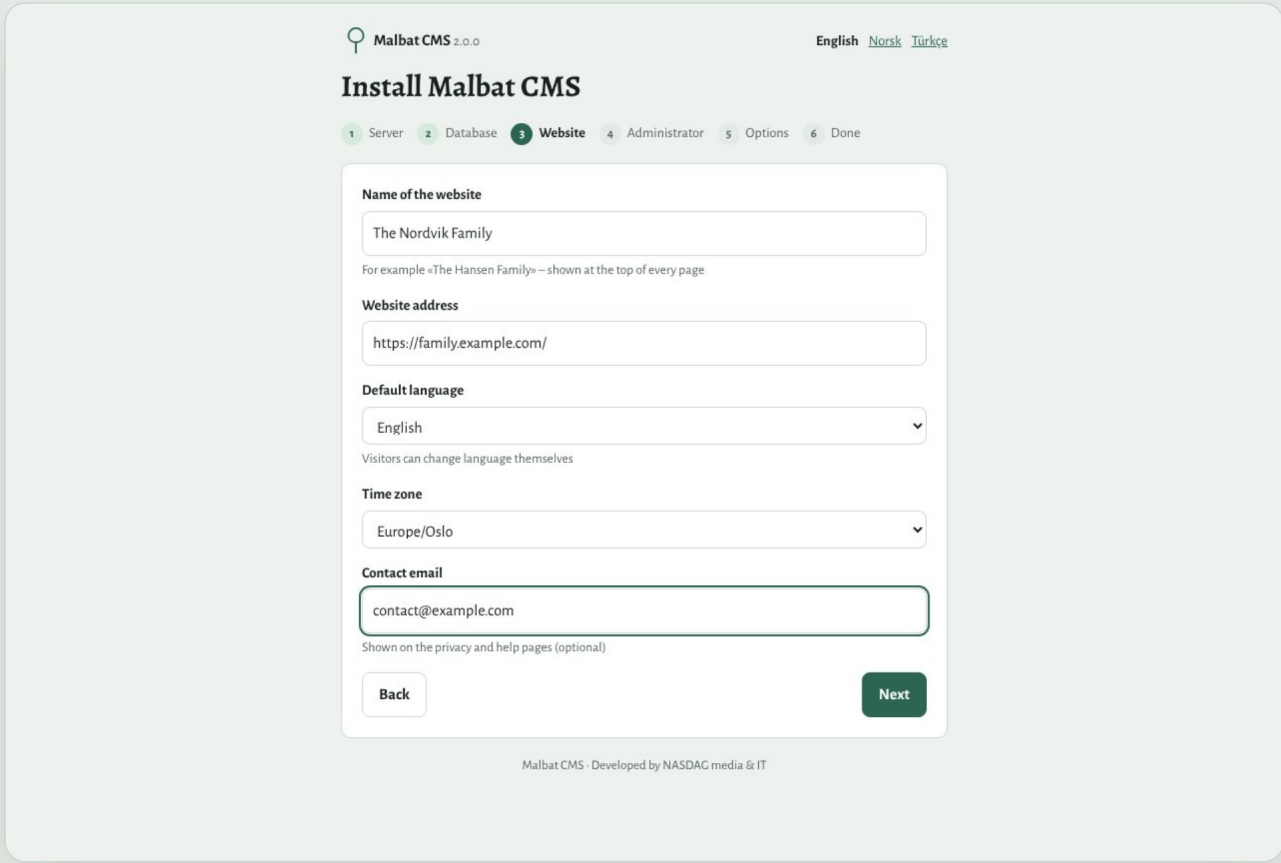

- Applications approved by the administrator
- Four roles, from reader to administrator
- Two-step verification and lockout after wrong passwords
- Change log and backups
- Photos only for signed-in members

INSTALLATION

# Ready in a few minutes

1. Upload the folder to the web hosting
2. Open the address in a browser
3. Follow the wizard: server, database, website, administrator, options
4. Sign in and invite the family

MALBAT CMS 2.0.0

# The family's story, told by the whole family

Keep what you know – before it is forgotten.
